

Desk Shield

MHP Industries is a company that designs and produces a multitude of products from plastics using different vacuum forming techniques.

We have designed a desk shield that will help to reduce the spread of viruses, to protect staff and customers in offices, retail shops or customer service desks.

The Desk Shield has arms on either side so that it is free standing, which can be extended with the Arm Extension Pack so that all edges of the desk are covered.

Desk Shield

- Made from FDA approved Clear PETG.
- Suitable to Retro Fit to existing desk and shop counters
- Stylish and easily cleaned
- Free standing
- Additional side extensions can be added to create side protection
- Available in 2 sizes to fit most desks
- Non slip feet
- Flat pack design for ease of transport and storage
- Minimum thickness of 2mm
- UK Manufacturer with ISO9001 accreditation.
